Professional Summary

Azure Cloud & AI Engineer with 1.8 years of overall experience, including 1.5 years of hands-on experience working with Azure OpenAI-based solutions, serverless applications, and cloud automation using Python and .Net (C#). Hands-on experience in developing agentic AI solutions, conversational workflows, and event-driven pipelines with Azure Functions. Solid understanding of Azure infrastructure services and prompt engineering, with a strong focus on building scalable, secure, and maintainable enterprise solutions.

Core Skills

- Azure OpenAI, Azure AI Services
- Azure Functions, Azure App services, Azure Web apps
- Azure Storage, Virtual Networks, Virtual Machines
- Python, C#, .Net Framework, Azure PowerShell, Azure CLI
- Prompt Engineering, Conversational AI, Autogen Framework

Professional Experience

- Designed and implemented agentic AI solutions using Azure OpenAI, including chatbots and multi agent collaboration systems.
- Built intelligent automation workflows using Azure Functions and Python to reduce manual intervention and improve system efficiency.
- Developed AI driven decision logic and conversational workflows leveraging contextual reasoning and prompt engineering.
- Managed Azure infrastructure including Virtual Machines, Virtual Networks, Storage Accounts, and Resource Groups.

Education

Masters in computer application (MCA) –Lovely Professional university, Punjab, India (2021 – 2023)

Certifications

- AI 900: Microsoft Azure AI Fundamentals
- AZ 900: Microsoft Azure Fundamentals
- AZ 204: Microsoft Azure Developer Associate
- AI 102: Microsoft Azure AI Engineer Associate

Skills

- Azure Functions, Azure App Service – Professional Experience
- Azure OpenAI – Professional Experience
- Microsoft Autogen Agentic Framework
- Python, C#, .Net Framework – Professional Experience
- Azure PowerShell & CLI – Professional Experience
